## **FORMULA1-FERNANDO ALONSO REPORTADLEY LOST HIS MEMORY FOR 7 DAYS AFTER ACCIDENT**

### **WOKE UP IN 1995!**

Milan, Italy, 06.03.2015, 13:52 Time

**USPA NEWS** - Fernando Alonso's memory was stuck in 1995 after his accident in pre-season Formula One testing last month and he was unable to recall the last 20 years of his life for about a week, according to reports in Spanish daily El Pais.

The McLaren driver is set to miss the season-opening grand prix in Australia on March 15 after suffering concussion. The two-time World Champ reportedly thought he was still a teenage go-karter who had not made his Formula 1 debut after the crash. "I'm Fernando, I drive go karts and I want to be a Formula 1 driver," he reportedly told doctors.
